UNITY

NATURAL TEXTURES
Imitation of noble materials, glass texturation

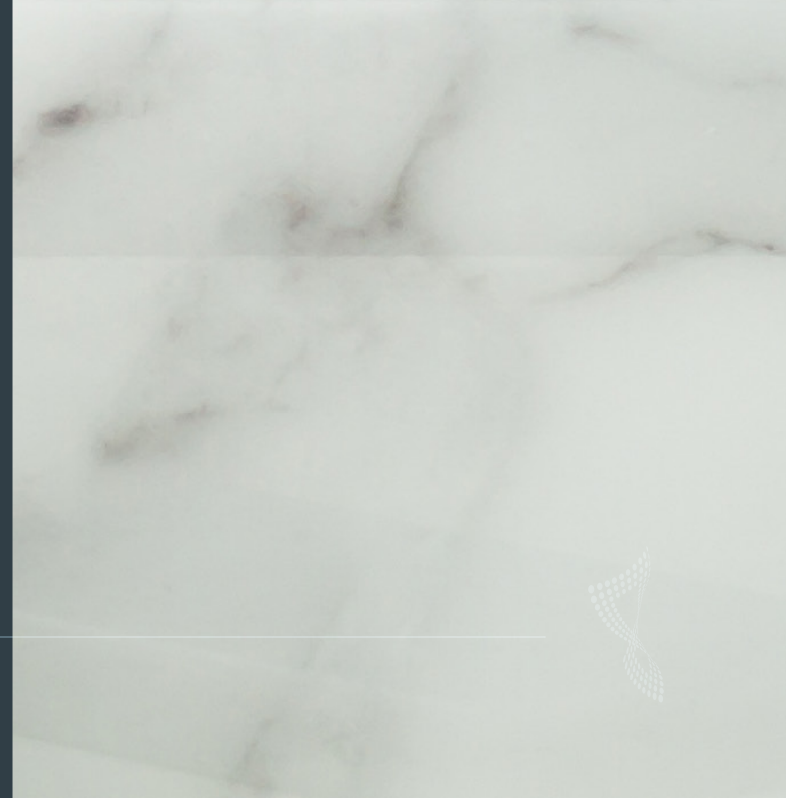

02 UNITY

Unity reflects a **minimalist and safe atmosphere** inspired by new ways of shared transportation.

This collection features a range of **semi-transparent mirror solutions and natural textures**.

A matte treatment over the surface can bring new relief effects, playing with the initial transparency of the glass.

Therefore, it can **recreate the touch feeling of natural textures** when it is applied partially.

SEMI-TRANSPARENT MIRROR
Backlighting and frosted effects
